Learning from Multi-Agency Audits

Background

The learning from these sessions is the result of efforts to quality assure practice, "through joint audits of case files involving practitioners and identifying lessons to be learned" ([Working Together to Safeguard Children, 2015](#)). These multi-agency audits on two of the LSCB's 17/18 priorities contribute to the Board's aim to engender a culture of continuous learning and improvement.

Learning Outcomes

The learning outcomes are as follows:

- Participants will understand the purpose of Redbridge multi-agency audits and how these complement the work of the LSCB.
- Learning from the multi-agency audits, and how this might enhance the work of agencies.
- Participants will have an opportunity to share their views on the challenges presented and best practices relating to the audit themes.
