

Understanding the Roma Community in the Context of Professional Curiosity

Background

Multi-agency practitioners can struggle to engage 'hard to reach groups' with statutory services such as health and education. This course aims to equip all professionals working with this community with an awareness of the perceived barriers to access and engagement.

Learning Outcomes

At the end of this briefing you will:

- Gain an introduction to the history and culture of the Roma communities they work with
- Explore community perceptions of statutory services
- Discuss professional misconceptions regarding 'resistant' families
- Establish an understanding of safeguarding in the context of professional curiosity and respectful challenge
